Apply at: <https://www.noregon.com/noregon-education-program/scholarships>

www.automotivescholarships.com

Application Deadline is usually March 31. A single complete scholarship application will automatically be considered for several different scholarship awards.

Your application should be focused to enter the automotive aftermarket industry. It is also highly recommended to highlight some of the following areas to allow your application to be applied to several different award selection committees. Include this information in your application essay. It is also highly recommended to document your course of study and the various attributes of your education as an additional attachment file to your application.

(ACC) Automotive Communications Council Scholarships

Priority given to students at 4-year colleges with a course of study in marketing, public relations, journalism, advertising or a related field in the aftermarket. SIU Automotive students with a passion and coursework for technical writing or marketing should emphasize this.

(ADS) Association of Diesel Specialists

Scholarships are available to first and second year students enrolled at a TechSmart member school. SIU Automotive is a TechSmart member school. Emphasize a passion for working in the diesel industry.

(APSA of IL) Automotive Parts and Service Association of Illinois

Residents of Illinois should apply and it is highly encouraged to also obtain a reference letter.

Breslow Foundation Scholarships

Priority given to students who plan a professional career in the automotive aftermarket, in categories such as engineering or business. Students should explain the flexibility of their curriculum to focus on either the automotive aftermarket service engineering or product management fields. It would be good to also indicate if you are pursuing a minor in one of these areas.

There are numerous scholarships that are focused on students in a NATEF certified program. SIU Automotive is a Master NATEF certified post-secondary program so be sure to highlight that in your application.

(McCurdy) Larry McCurdy Memorial; (Multi Parts) Multi Parts Supply

Students enrolled in a full-time, 4 year college-level program such as engineering, marketing or business. Students should explain the flexibility of their curriculum to focus on either the automotive aftermarket service engineering or product management fields.

(Mitchell 1) Mitchell 1 Automotive Technology Scholarship

High school seniors, who are taking automotive classes and if their instructor is a member of the North American Automotive Council for Automotive Teachers should apply.

(Standard Motor) Standard Motor Products Scholarship

Standard Motor Products prefers applicants training to become automotive technicians.

Bosch Scholarship

Students enrolled in accredited automotive, heavy-duty or diesel programs. Focus is to prepare the future automotive workforce and help fill the need of qualified vehicle technicians and aftermarket professionals.

Women in Auto Care

Multiple scholarships for high school and post-secondary female students.
